XYX-110

Product Code: 0000000034
Weight: 0.00kg
Dimensions: 0.00cm x 0.00cm x 0.00cm

Description

Classification: simulation resin, ceramic resin, cement made of fake wood.The main resin we use for electric fireplaces is emulator resin

Simulation resin characteristics?

1. Strong plasticity: resin material has strong molding ability, can be made into a variety of shapes, and has a wide range of applications. . 2. Decorative: fine material, resin material, excellent quality, can be designed according to requirements, style, color or size. 3. Durability: resin material surface finish is high, the product has good flexibility, corrosion resistance, high and low temperature resistance, aging resistance, long service life.
